

1. Department Table

□ Attributes:

- Department_Code (PK), Office_Number, Administrator_Name, Head_Of_Department_ID (FK to Academic Staff_Number)

□ Description:

- Stores details about departments, including the office, administrator, and the Head of Department.

2. Staff Table

□ Attributes:

- Staff_Number (PK), Name, Salary, Department_Code (FK to Department)

□ Description:

- General information about all teaching staff (Academics and Teaching Assistants). The Department_Code is a foreign key referencing the **Department** table.

3. Academic Table

□ Attributes:

- Staff_Number (PK, FK to Staff), Grade, Special_Responsibility_Allowance

□ Description:

- Stores specific information about academics. This is a specialization of the Staff entity. The Staff_Number is both a primary key and a foreign key referencing the **Staff** table.

4. Teaching Assistant Table

□ Attributes:

- Staff_Number (PK, FK to Staff), Contract_Number

□ Description:

- Stores specific information about teaching assistants, which is another specialization of the Staff entity.

5. Module Table

□ Attributes:

- Module_Number (PK), Module_Name, Topic, Responsible_Academic (FK to Academic Staff_Number)
